

With an impressive follow up of several avenues and platforms for the students the IEEE Student Chapter aims to take another victorious stride towards glory.

After days of meticulous planning ,the **IEEE Student Chapter**, proudly presents

"Ad-WIE-ta 2k17"

Comprising of workshop, an entrepreneurship talk and the many other exhilarating events, aiming at creating an awareness amongst students and providing a chance to interact with the progressing minds in the industry along with several insightful and spot on events, this 2 day event assures full fledged "infotainment". Aiming at bringing students from several colleges into a single frame, the event would serve as a golden gate for the students across all the branches of engineering to showcase their abilities and prove their mettle. In addition to the provision of the requisite skills and opportunities, the event aims to catalyze knowledge exchange and amplify one's exposure.
