About GITAM

The Gandhi Institute of Technology and Management (GITAM) was established in 1980 by a group of eminent intellectuals and industrialists, led by Dr. M. V. V. S. Murthi, former Member of Parliament, and popular philanthropist. Their goal, to bring to life Mahatma Gandhi's vision of an institution for higher education that transcends all barriers. GITAM is ranked as a Category-‘I’ University by the Ministry of Human Resource Development, Govt. of India. It’s also accredited by the NAAC with an ‘A++’ grade[24] and is ranked 95th in the University category in NIRF Ranking 202 of MHRD. Gandhi Institute of Technology and Management (GITAM) located at Visakhapatnam, Hyderabad and Bengaluru.

Vision

To excel in Electrical, Electronics and Communication Technologies cultivating innovation with socio-ethical commitment

Mission

Empower the students with knowledge to face real-world challenges for holistic development.

Conduct multidisciplinary research that makes an impact on society, addressing key challenges through innovative solutions.

Foster a culture emphasizing empathy, respect, commitment upholding the ethical standards.

About EECE Department

Overview

A 4-year B.Tech. Electronics and Communication Engineering programme seeks to produce skilled electronics and communication professionals with a strong foundation in the fundamentals of Electronics and Communication Engineering who can engineer large, relevant, and robust electronics & communication systems. Our B.Tech. Electronics and Communication Engineering programme prepares the students for either a professional career or advanced disciplines. The curriculum is designed to deliver comprehensive knowledge and teachings on electronics and communication engineering to ensure students develop a complete understanding of the subject. A degree in this programme will cover the following topics:

- Analog & Digital Communication
- Digital Logic & Circuits
- Coding & Information Theory
- Wireless Networking
- Signal Processing
- Electronics Architecture & Protocols

Additionally, the programme will also educate the students on the general principles of all the disciplines of engineering. The programme will also instill teamwork, leadership, and communication skills in the student with professional, ethical, and human values to be responsible citizens of society.

Career Options for B.Tech. Electronics and Communication Engineering

Students who enroll in the B.Tech. Electronics and Communication Engineering programme will develop the necessary skills to become successful professionals and experts in the field. The wide range of career opportunities include:

- Telecom Engineer
- R&D Software Engineer
- Software Analyst
- Electronic Design Engineer
- Desktop Support Engineer
- Technical Director
- Network Planning Engineer
- Service Engineer

To provide high-quality education in Electrical &

The department of EECE is a constituent department in GITAM Institute of Technology, GITAM (Deemed to be University). The department has two active professional societies dedicated to the holistic development of students namely IETE and IEEE.

About IETE:

IETE Student Chapter – GITAM School of Technology

The Institution of Electronics and Telecommunication Engineers (IETE) is India's leading professional society dedicated to advancing Science and Technology in Electronics, Telecommunication, and IT. Established in 1953, IETE serves over 1,25,000 members across 64 centers in India and abroad, providing leadership in scientific and technical fields.

Recognizing the need for innovation, the IETE Student Chapter at GITAM School of Technology was established in 2008-2009 under the EECE Department. It aims to promote knowledge exchange and professional growth in Electronics, Telecommunication, Computer Science, and Information Technology. The chapter fosters young minds by keeping pace with evolving global trends in technology.

About IEEE:

IEEE GITAM: Inspiring Innovation & Growth

The Institute of Electrical and Electronics Engineers (IEEE) is the world's largest technical professional organization, dedicated to advancing innovation and technological excellence for the benefit of humanity. With over 420,000 members in 160+ countries, IEEE fosters scientific and technological progress through highly cited publications, global conferences, industry standards, and educational initiatives. It serves professionals in electrical, electronics, computing, and related fields, shaping the future of technology and engineering. IEEE operates through 334 Sections, 2,100+ Chapters, and 3,000+ Student Branches worldwide, with specialized societies.

At GITAM (Deemed to be University), the IEEE Student Branch actively engages students in technical research, professional development, and cutting-edge conferences, offering platforms like APS, SPS, RAS, CS, PES, and WIE AG Group to enhance knowledge and skills. Committed to technological growth, leadership, and integrity, IEEE and IEEE GITAM work together to nurture talent and drive advancements for a better future.

IETE EVENTS

Workshop on Raspberry pi, Arduino and Nodemcu:

IETE Student Chapter conducted workshop on Hands on with Raspberry pi, Arduino and Nodemcu on two days 12&13-sept-2022. Resource persons Dr.B Uday Kumar and Mr.Prateek Kumarn have provided hands on experience on IoT applications. Temperature sensor, ultra-sonic sensor, PIR, Humidity various sensor interfacing was done. Participation certificates were given to all participants. This event is coordinated by Prof. J.B. Seventline, HoD, EECE, and IETE faculty advisors Dr. S.Neeraja, Mr.K.V.Satya Kumar, Dr. P. Raju and Student coordinators Ms.G.Varshini and Mr. M.A.V.S.Teja . Total participants include 64 inside and 15 outside.

Quiz competition:

IETE Student Chapter conducted quiz competition on 20-11-2022 for 2nd year ECE students.

Total of 8 teams participated in event. Each team consists of 5 members each. Winners were given prize money and certificates to all participants. This event is coordinated by Prof. J.B. Seventline, HoD, EECE, and IETE faculty advisors Dr. S.Neeraja, Mr.K.V.Satya Kumar, Dr. P. Raju, and Student coordinators Ms.G.Varshini and Mr. M.A.V.S.Teja . Total participants include 40.

IEEE Events:

Hand-on Training on LoRa Board:

GITAM (Deemed to be University) School of Technology, IEEE Signal Processing Society in association with IEEE ComSoc/SPS joint Chapter of IEEE Vizag Bay Section organized a Hands on Workshop on LoRa Boards Training. Prof. V.V.S.S.S Chakravarthy, Chief guest, and Vice Chair, IEEE ComSoc/SPS joint Chapter, addressed the future technologies of Wireless communication networks. In this speech, he addressed the importance of students getting industry ready, prototyping the idea, and pitching off the industrial product at the campus while learning. He addressed how LoRa boards help in building a smart city, smart home, smart supply chain, smart Covid support, smart retail, smart environment, smart industry, and many applications. LoRa boards help the students to build their own wireless channel for establishing communication for disaster management. SPS team of trainers trained the GITAM IEEE Student branch Students. This helped the students to develop their skills on LoRa boards and develop their own applications. The event was conducted on 2nd Sept, 2022.

The event was coordinated by Dr. J. Beatrice Seentline, HoD EECE Department, Dr.TSN.Murthy, Chair IEEE COMSOC/SPS Joint Chapter, Md. K.M. Chisti, Branch Counsellor, Dr T.Gowri, Faculty Advisor SPS, Student coordinators Mr. Pavan Vignesh Student Chair, IEEE Student Branch, P.Rupasree

Student Chair, SPS Chapter.

Total participants include 30 inside and 5 outside.

RoboQuest :

Robotics and Automation Society Chapter of IEEE Student Branch organized a two-day technical event – RoboQuest, on 8th and 9th of September 2022, sponsored by SUG Creative in GITAM (Deemed to be University), Visakhapatnam. On 8th September 2022, the first round 'Pictionary' was held, in which each team had to identify the word that has been sketched based on the clues given by their team leader. The top four teams who managed to guess the highest number of correct words within a given time duration were qualified for Round 2 'Stack a Bot' in which the clues for building a basic Robot were hidden in different places in the form of chits. The participants searched for them through “Treasure Hunt” and affixed the Robot under the supervision of the Technical Team.

Students across all the departments of different years of study actively participated in the event and showcased creative and top-notch technical skills in building the Robot. The participants were excited as it was their first hands-on experience building a robot that moves around a specified path. The participants of 1st year and 2nd year students were informed about IEEE and the perks that IEEE provides.

The event was coordinated by Dr. J. Beatrice Seventline, HoD EECE Department, Md. K.M. Chisti, Branch Counsellor, Dr T.Gowri, Faculty Advisor SPS, Student coordinators Mr. Pavan Vignesh Student Chair, IEEE Student Branch, R. Joel, Student Chair, RAS Chapter. Total participants include 50.

PLACEMENT DIARIES:

IEEE Student Branch organized an interactive session between the students who have already been placed in the campus placements and the other students.

The event was graced by the Head of the EECE Department, who provided insights on Campus Placement and the importance of them in the career of the students. She provided us with the comprehension of how one has to make themselves ready for the upcoming placements to reach the heights of career.

Branch Counsellor Md. Chisti provided insights on making the best use of time during the pre-final year of academics and evolving with industrial needs. The event was held on 15th Oct, 2022.

Students who are placed in different companies shared their experiences and learning resources with other peers which are essential for Placements. They also stated the importance of Projects and Internships, which add extra value to a Resume, and encouraged

The other students work on the same.

Students across all the departments of different years of study interacted with the seniors and got to know the process of placements and the domains that they have to get nourished to get placed in the best company. Total participants include 50 .
