**Dr. Bappaditya Chatterjee**

Associate Professor, GITAM School of Pharmacy, Hyderabad

## About the GITAM

Gandhi Institute of Technology and Management, popular as GITAM, was founded in 1980 by an inspired group of eminent intellectuals and industrialists of the combined Andhra Pradesh state. GITAM is one of the premier centres of higher education in the country. GITAM has held an unrivalled position in the academic firmament for over three decades. The learner-centered teaching methodology with an outcome-based curriculum designed by academic experts prepares GITAM graduates to successfully meet academic and corporate challenges.

## About the GITAM - Hyderabad Campus

Hyderabad campus which was started in 2009 has developed into one of the important hubs of higher education in the State of Telangana. It has 7 constituent institutes viz., School of Technology, School of Business, School of Pharmacy, School of Architecture, School of Science, School of Humanities and Social Sciences and Kautilya School of Public Policy. Within 13 years span of time, GITAM, Hyderabad, has grown into one of the premier institutes in the State of Telangana touching a mark of over 6500 students. The campus has a well-qualified and committed team of about 400 faculty members and most of them possess Ph.D. degree with an industrial background. The faculty members have undertaken several sponsored research projects and consultancy assignments.

## About GITAM School of Pharmacy (GSP)-

GSP is an elite institution with state-of-the-art infrastructural facilities, modern laboratories and student support services coupled with dedicated and experienced faculty. This school was established to provide value-based education with an unwavering commitment to generate competent pharmaceutical technocrats of high probity and honor, to instill ethical values and a lifelong commitment of service for the general well-being of humanity.

## About "Train the Trainers" workshop

Faculty members are the trainers of students. Trainers also need to be trained and updated for an effective teaching-learning process. An interactive session and experiential learning are very important in today's outcome-based education context. Hence the workshop, to be conducted by the professional expert will provide new ideas and techniques to the faculty for conducting an interesting and engaging session.
