GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT (GITAM)

(Deemed to be University)

VISAKHAPATNAM * HYDERABAD * BENGALURU

Accredited by NAAC with A^{++} Grade

GITAM School of Technology

CURRICULUM AND SYLLABUS

4 Year Undergraduate Programme
UCIVL02: B.Tech. Civil Engineering with Computer Application

w.e.f. 2024-25 admitted batch

(Updated on June 2025)

Academic Regulations

Applicable for the Undergraduate Programmes in the School of Technology (except B.Tech.CSBS)

https://www.gitam.edu/academics/academic-regulations

GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Vision

GITAM will be an exceptional knowledge-driven institution advancing on a culture of honesty and compassion to make a difference to the world.

Mission

- Build a dynamic application-oriented education ecosystem immersed in holistic development.

- Nurture valuable futures with global perspectives for our students by helping them find their ikigai.

- Drive impactful integrated research programmes to generate new knowledge, guided by integrity, collaboration, and entrepreneurial spirit.

- Permeate a culture of kindness within GITAM, fostering passionate contributors.

Quality Policy

To achieve global standards and excellence in teaching, research, and consultancy by creating an environment in which the faculty and students share a passion for creating, sharing and applying knowledge to continuously improve the quality of education.

VISION AND MISSION OF THE SCHOOL

VISION

To become a global leader in holistic engineering education and research

MISSION

- To impart a strong academic foundation and practical education through a flexible curriculum, state-of-the-art infrastructure, and best learning resources

- To actively pursue academic and collaborative research with industries and research institutions, both in India and abroad

- To build a congenial and innovative eco system by enabling the latest technologies, thus helping the students, to solve the challenges of societal importance

- To provide our students with the appropriate leadership, management, communication skills and professional ethics for career success and to continuously impact the global lives

VISION AND MISSION OF THE DEPARTMENT

VISION

GITAM will be an exceptional knowledge-driven institution advancing on a culture of honesty and compassion to make a difference to the world

MISSION

- Empower students with knowledge and skills to face challenges in Civil engineering and allied domains through computer applications, experiential learning, and futuristic curriculum.

- Enhance the culture of a multi-disciplinary research ecosystem, fostering innovation and knowledge-based value addition to develop resilient and sustainable infrastructure addressing societal needs.

- Provide a transformative education to students by inculcating lifelong learning and societal values ensuring a joyful experience and overall well-being.

- Cultivate leadership qualities and professional experience and develop entrepreneurial skills through industry collaborations, outreach programs, and service-oriented projects.

UCIVL02: B.Tech. Civil Engineering with Computer Applications
(w.e.f. academic year 2024-25 admitted batch)

Programme Educational Objectives (PEOs)

PEO 1	Demonstrate professional excellence by applying their knowledge and skills to solve complex engineering problems, innovate solutions, and contribute effectively to their respective fields.
PEO 2	Possess strong communication and collaboration skills, enabling them to be involved in multidisciplinary research areas with ethical values to achieve shared goals and objectives.
PEO 3	Engage in lifelong learning and professional development to adapt technologies and emerging trends in construction, sustainable infrastructure, and facility management industries, ensuring success throughout their careers.
PEO 4	Exhibit leadership qualities and social responsibility by actively contributing to their communities, promoting ethical conduct, and addressing societal challenges through engineering solutions.

PEO Articulation

	PEO1	PEO2	PEO3	PEO4
M1	H	M	M	M
M2	H	H	M	H
M3	M	H	H	H
M4	M	M	H	H

H – High, M – Medium, L – Low

Programme Outcomes (POs) and Programme Specific Outcomes (PSOs):

At the end of the Programme the students would be able to:

PO1	Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
PO2	Problem analysis: Identify, formulate, review research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
PO3	Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
PO4	Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
PO5	Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
PO6	The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
PO7	Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
PO8	Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
PO9	Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
PO10	Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
PO11	Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12	Life-long learning: Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.
PSO1	Graduates shall demonstrate sound knowledge in analysis, design and execution of Civil engineering infrastructure projects with appropriate consideration for cost, safety and sustainability.
PSO2	Serve the society by solving various Civil engineering problems focusing on sustainable development and following professional ethics and integrity.
PSO3	Graduates will be able to provide sustainable solution for real time problems through research.

Curriculum Structure
(Flexible Credit System)

Minimum Credit Requirements for the Award of Degree

S.No.	Course Category and Category Code	Minimum Credits	% of credits in the Programme
1.	University Core (UC)	19	11.87
2.	Faculty Core (FC)	53	33.13
3.	Programme Core (PC)	49	30.62
4.	Programme Electives (PE)	15	9.38
5.	Open Electives (OE)	24	15.00
	Total	**160**	**100**

University Core (UC) : 19 Credits

24CIVL3401	300	Sanitary Engineering	2	1	0	0	0	3
24CIVL3411	300	Irrigation and Hydraulic Structures	2	1	0	0	0	3
24CIVL3421	300	Waste Management	2	1	0	0	0	3
24CIVL3431	300	Watershed Management	2	1	0	0	0	3
24CIVL3441	300	Computer Applications in Water and Environmental Engineering	2	1	0	0	0	3

Open Electives (OE)

A minimum of 24 credits are to be earned under this category of courses, out of which 9 credits are from other departments from the School of Technology and the remaining 15 credits are from schools other than the School of Technology.

Minor

Students may opt to enroll in a Minor programme for 20 Credits extra beyond the academic requirement of 160 Credits to obtain the B.Tech. degree.

The list of available Minor Programmes are listed **here**
