GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT (GITAM)

(Deemed to be University)
VISAKHAPATNAM * HYDERABAD * BENGALURU

Accredited by NAAC with A⁺⁺ Grade

GITAM School of Science

CURRICULUM AND SYLLABUS

2 Year Postgraduate Programme PMATH01: M.Sc. Applied Mathematics

w.e.f. 2025-26 admitted batch (Updated on July 2025)

Academic Regulations

Applicable for the Postgraduate Programmes in the Schools of Humanities & Social Sciences and Science (except M.C.A)

https://www.gitam.edu/academics/academic-regulations

GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT

Vision

GITAM will be an exceptional knowledge-driven institution advancing on a culture of honesty and compassion to make a difference to the world.

Mission

- Build a dynamic application-oriented education ecosystem immersed in holistic development.
- Nurture valuable futures with global perspectives for our students by helping them find their ikigai.
- Drive impactful integrated research programmes to generate new knowledge, guided by integrity, collaboration, and entrepreneurial spirit.
- Permeate a culture of kindness within GITAM, fostering passionate contributors.

Quality Policy

To achieve global standards and excellence in teaching, research, and consultancy by creating an environment in which the faculty and students share a passion for creating, sharing and applying knowledge to continuously improve the quality of education.

GITAM School of Science

Vision

Nurturing a high-quality Science Education and Research by providing a best learning ecosystem to create world class academicians and researchers.

Mission

- To teach the most renewed curriculum that lay the foundation for students to start exciting careers in academia, research, and industry.
- To foster an environment of healthy curiosity, an innovative mindset, and a strong desire to contribute to the science world.
- To advance our understandings of the natural processes of Physical, Chemical and Biological systems for a better habitable world.
- To inculcate a strong sense of empathy, integrity, and trust in the GITAM Fraternity with a strong commitment towards society and environment.

VISION AND MISSION OF THE DEPARTMENT

VISION

To provide quality education and research in Mathematical Sciences by creating an enabling and enjoyable learning experiences and fostering a community of passionate learners

MISSION

- Inculcate an application-oriented education in mathematical sciences, preparing students for successful careers in academia, research, and industry.
- Conduct innovative research in mathematics and statistics, including mathematical modelling and interdisciplinary problems, to advance knowledge and benefit communities.
- Identify and nurture students' strengths, fostering curiosity, innovation, and a commitment to contributing to the science world.
- Promote a diverse and inclusive environment, ensuring equity, fairness, and empathy in all academic and professional endeavours, with a strong commitment to society and the environment.

Programme Educational Objectives (PEOs)

- **PEO 1:** To apply basic knowledge of mathematics and science to understand the real world problems.
- **PEO 2:** To establish the methodologies for core mathematical problems.
- **PEO 3:** To implement computer solution methods for large systems.
- **PEO 4:** To perform inter-disciplinary research objectives
- **PEO 5:** To imbibe professional and ethical responsibility towards the society

PEO Articulation

| | PEO1 | PEO2 | PEO3 | PEO4 | PEO5 |
|----|------|------|------|------|------|
| M1 | 2 | 3 | 1 | 3 | 3 |
| M2 | 2 | 3 | 3 | 1 | 4 |
| М3 | 3 | 2 | 1 | 2 | 2 |
| M4 | 3 | 2 | 2 | 3 | 1 |

^{3 -} High Correlation, 2 - Medium Correlation, 1 - Low Correlation

Programme Outcomes (POs) and Programme Specific Outcomes (PSOs)

At the end of the Programme the students would be able to demonstrate:

PO1: Apply basic knowledge of mathematics and science to understand the real world problems.

PO2: Develop complexity problem solving techniques using mathematical tools.

PO3: Establish the methodologies for core mathematical problems.

PO4: Implement computer solution methods for large systems.

PO5: Assess the influence of global changes on organization for effective decision making business problems.

PO6: Acquire knowledge of fast changing methodologies for solving engineering and science problems.

PO7: Exhibit leadership capabilities.

PO8: Perform inter-disciplinary research objectives.

PO9: Communicate effectively in peer and research related conferences.

PO10: Acquire skills to become a good researcher.

PO11: Engage in life-long learning environment.

PO12: Imbibe professional and ethical responsibility towards the society.

PSO1: Create Mathematical Models (along with solution) for various physical needs.

PSO2: Use Mathematics, not only in the discipline of Mathematics, but also in other disciplines and in their future endeavours

PSO3: Develop the statistical and computer programming skill for solving various physical problems.
