

**GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT (GITAM)**

(Deemed to be University)

VISAKHAPATNAM \* HYDERABAD \* BENGALURU

Accredited by NAAC with A<sup>++</sup> Grade

**GITAM School of Technology**

**CURRICULUM AND SYLLABUS**

**4 Year Undergraduate Programme**

**UMECH01: B.Tech. Mechanical Engineering**

w.e.f. 2024-25 admitted batch

(Updated on July 2025)

# **Academic Regulations**

**Applicable for the Undergraduate Programmes in the  
School of Technology (except B.Tech.CSBS)**

**<https://www.gitam.edu/academics/academic-regulations>**

# **GANDHI INSTITUTE OF TECHNOLOGY AND MANAGEMENT**

## **Vision**

GITAM will be an exceptional knowledge-driven institution advancing on a culture of honesty and compassion to make a difference to the world.

## **Mission**

- Build a dynamic application-oriented education ecosystem immersed in holistic development.
- Nurture valuable futures with global perspectives for our students by helping them find their ikigai.
- Drive impactful integrated research programmes to generate new knowledge, guided by integrity, collaboration, and entrepreneurial spirit.
- Permeate a culture of kindness within GITAM, fostering passionate contributors.

## **Quality Policy**

To achieve global standards and excellence in teaching, research, and consultancy by creating an environment in which the faculty and students share a passion for creating, sharing and applying knowledge to continuously improve the quality of education.

## **VISION AND MISSION OF THE SCHOOL**

### **VISION**

To become a global leader in holistic engineering education and research

### **MISSION**

- To impart a strong academic foundation and practical education through a flexible curriculum, state-of-the-art infrastructure, and best learning resources
- To actively pursue academic and collaborative research with industries and research institutions, both in India and abroad
- To build a congenial and innovative eco system by enabling the latest technologies, thus helping the students, to solve the challenges of societal importance
- To provide our students with the appropriate leadership, management, communication skills and professional ethics for career success and to continuously impact the global lives.

## **VISION AND MISSION OF THE DEPARTMENT**

### **VISION**

GITAM will be an exceptional knowledge-driven institution advancing on a culture of honesty and compassion to make a difference to the world.

### **MISSION**

- Nurture the learning environment by imparting activity-based learning enabling the student fraternity to come up with innovative solutions.
- Create significant impact through dissemination of research through public and private partnerships and solving real-world complex problems.
- Provide professional development opportunities through skill development activities, workshops, corporate and community outreach activities.
- Develop entrepreneurial mindset through industry collaborations, incubation centers and by promoting a competitive environment.

**UMECH01: B.Tech. Mechanical Engineering**  
**(w.e.f. academic year 2024-25 admitted batch)**

**Programme Educational Objectives (PEOs)**

<b>PEO 1</b>	Apply their engineering knowledge, critical thinking abilities, managerial and communication skills to establish themselves as professionals in various disciplines of Mechanical Engineering.
<b>PEO 2</b>	Continue their learning path through a combination of higher studies, upskilling, professional development and research in the latest areas of mechanical engineering and related disciplines.
<b>PEO 3</b>	Cultivate leadership qualities through professional experience, entrepreneurship and/or public service.
<b>PEO 4</b>	Demonstrate and uphold elevated standards of professional integrity, ethics and inclusivity in their professional and daily endeavors.

**PEO Articulation**

	<b>PEO1</b>	<b>PEO2</b>	<b>PEO3</b>	<b>PEO4</b>
<b>M1</b>	H	H	L	M
<b>M2</b>	M	H	M	H
<b>M3</b>	M	M	H	M
<b>M4</b>	M	M	H	H

H – High, M – Medium, L – Low

**Programme Outcomes (POs) and Programme Specific Outcomes (PSOs):**

At the end of the Programme the students would be able to:

<b>PO1</b>	Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
<b>PO2</b>	Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
<b>PO3</b>	Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
<b>PO4</b>	Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
<b>PO5</b>	Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
<b>PO6</b>	The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
<b>PO7</b>	Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
<b>PO8</b>	Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
<b>PO9</b>	Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
<b>PO10</b>	Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
<b>PO11</b>	Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

<b>PO12</b>	Life-long learning: Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.
<b>PSO1</b>	Employ the principles of Mechanical Engineering and its allied disciplines to design and realize mechanical devices and systems in compliance with regulatory standards.
<b>PSO2</b>	Perform rudimentary research in the areas of emerging technologies related to Mechanical Engineering.
<b>PSO3</b>	Collaborate in teams to address multifaceted challenges associated with societal and environmental issues.

# **Curriculum Structure**

## *(Flexible Credit System)*

**Minimum Credit Requirements for the Award of Degree**

<b>S.No.</b>	<b>Course Category and Category Code</b>	<b>Minimum Credits</b>	<b>% of credits in the Programme</b>
1.	University Core (UC)	19	11.87

## Open Electives (OE)

A minimum of 24 credits are to be earned under this category of courses, out of which 9 credits are from other departments from the School of Technology and the remaining 15 credits are from schools other than the School of Technology.

## Minor

Students may opt to enroll in a Minor programme for 20 Credits extra beyond the academic requirement of 160 Credits to obtain the B.Tech. degree.

The list of available Minor Programmes are listed [here](#)
